

GK MCQ Bank — Practice Questions for Paper 1 (General English & GK)

Exam: NPSC CTSE 2026, General English & GK (Combined) — 100 marks, 3 hours, **26 September 2026**. GK is 50 of the 100 marks. This file is a **self-test bank**: 160 original multiple-choice questions across every GK topic in the official syllabus, plus a current-affairs "what to look up" block. Pair it with [03_GK_CAPSULE.md](#) for the underlying facts and explanations — this file is for drilling recall speed.

How this paper actually tests GK — and how to use this file

- The syllabus line is: *"General knowledge comprising of current events, general science, mental ability, Indian history, Indian polity, Indian economy, Geography with combination of objective type and short descriptive answers — 50 Marks."* In practice (see the real 2025 paper) that means a long run of **single-best-answer, four-option MCQs** — some straightforward recall, some "which of these statements is true" / "which of i, ii, iii is correct" combination items — answered **in a grid on the answer booklet**, not written out.
- ⚠ **No negative marking applies to the General paper — verify this on your actual 2026 question paper's instruction page before you rely on it.** The real 2025 General paper's cover page states *"There will be no negative marking"* in black and white, and this is a **different rule from the Technical MCQ paper**, which does negative-mark. Because the rule can only be confirmed from the paper you are actually sitting, treat "no negative marking" as *likely but not certified* until you read your own booklet's instructions on exam day — and if it does turn out to carry negative marking, do not blind-guess; only answer once you can eliminate at least one option.
- **Self-test discipline:** cover the answer key, attempt each section's block cold, then open the [<details>](#) key. Re-attempt only what you got wrong, a few days later.
- **Your structural edge:** you are a Naga sitting a Nagaland exam. The Nagaland & North-East section below is deliberately the largest block — a national candidate cannot match you here, so over-learn it.
- **Accuracy discipline in this file:** every fact that can change over time (current office-holders, district counts, scheme outlays, population figures) is marked ⚠ **verify** rather than stated as fixed truth — re-check any such figure from a current source before writing it in the real exam. Nothing in this file is invented; where an exact current fact was needed and could not be verified, a question **stem** is given instead so you know what to look up.

SECTION 8 — CURRENT AFFAIRS: WHAT TO LOOK UP, NOT WHAT TO MEMORISE FROM HERE

This file will not invent current-affairs facts, names, or dates. The real 2025 General paper devoted a large opening block to events from the preceding 12 months (diplomatic visits, treaties, science/tech news, sports, awards) — so expect the 2026 paper to do the same for the window **September 2025 to September 2026**. Below are **question stems only** — the *shape* of what will likely be asked — each pointing to a topic you must verify from a live, reliable source (PIB, The Hindu, Nagaland Post/ Morung Express/Eastern Mirror for the NE angle) close to the exam date. Do **not** fill in specific names, dates or numbers from memory unless you have just verified them.

- [] **verify**: Who currently holds the offices of Governor and Chief Minister of Nagaland, and has either changed in the last 12 months?
- [] **verify**: What was the theme, dates, and any partner state/country of the most recent Hornbill Festival?
- [] **verify**: Has Nagaland gained any new district(s), and what is the current total district count?
- [] **verify**: Any recent development in the Naga political settlement/peace process (Framework Agreement talks, ceasefire extensions)?
- [] **verify**: Who is the current President, Vice-President, and Chief Justice of India, and has any changed recently?
- [] **verify**: What were the headline announcements of the most recent Union Budget, and what was the latest RBI repo-rate decision?
- [] **verify**: Which major international summit(s) did India host or attend most recently (G20/BRICS/SCO/QUAD/UN), and with what outcome?
- [] **verify**: What was India's most recent major ISRO mission/launch?
- [] **verify**: Who won the most recent Bharat Ratna, Nobel-category, or major national award, if any were announced in the last year?
- [] **verify**: Any recent high-profile diplomatic visit to India or by an Indian leader abroad, and the visiting/visited dignitary's official title (a favourite

question type — note how the 2025 paper asked for a visiting official's *exact position*, not just their name).

- []  **verify:** Any major India-related sporting result (medal, series win) in the last 12 months.

Method: build your own one-page current-affairs diary from real sources in the weeks before 26 September, star every Nagaland/NE item, and revise only your own verified notes in the final week — never a guessed fact.
